

The scatter plot displays the relationship between the Corruption Perception Index (CPI) and the Democracy Index for 180 countries. The x-axis represents the Democracy Index (0 to 100) and the y-axis represents the CPI (0 to 100). Countries are color-coded: red for high CPI and low Democracy Index, green for high CPI and high Democracy Index, and blue for low CPI and high Democracy Index. The plot shows a positive correlation between the two indices, with a dense cluster of countries in the top-right quadrant (high CPI, high Democracy Index).
