

The scatter plot displays the relationship between the Corruption Perception Index (CPI) score (Y-axis) and the Human Development Index (HDI) score (X-axis) for various countries. The X-axis ranges from 0.5 to 1.0, and the Y-axis ranges from 0 to 10. Countries are plotted as points, with their names labeled next to them. The plot shows a positive correlation between HDI and CPI scores, with most countries falling within the range of HDI 0.6 to 0.9 and CPI 2 to 9. Some countries like Japan, Australia, and France are outliers with high CPI scores and high HDI scores. Other countries like Myanmar, Brazil, and Argentina are outliers with high CPI scores and low HDI scores. The plot also shows a dense cluster of countries in the lower right quadrant, indicating low CPI scores and high HDI scores.
